

DEDUCT METER INSTRUCTIONS

1. The property owner is responsible for all maintenance and upkeep of the deduct meter and must ensure it can be read by water company personnel at all times. If the meter is less than 1 year old, from date of purchase, Central Hooksett Water will replace or repair any manufactured defects. If found meter installation to be cause of problem home owner will be billed at current hourly rate.
If the deduct meter is over 1 year old there will be an inspection and service charge fee for staff to come out to determine the meter malfunction. The staff personnel will then advise if meter needs to be repaired, by homeowner or plumber, or if needs to be replaced at cost to homeowner. If replacement is chosen please call to set up new inspection date and time.
2. Meter horn is optional on deduct meter.
3. Meter must be cut into existing water main above CHWP Meter.
4. All outside water must be completely separate from domestic house water.
5. Double check valves are not allowed. An RPZ or PVB is required on irrigation systems and must be mounted outside downstream of the deduct meter.
6. Central Hooksett Water will inspect and seal the deduct meter. Please call Central Hooksett Water, 603-624-0608, to set up an appointment. Please allow 24 – 48 hours.
